NESBA Announces 2007 Membership Drive

Mohnton, PA (January 1, 2007)—The Northeast Sportbike Association (NESBA) will be holding one membership drive in 2007, passing savings onto new and renewing members. This membership special offers NESBA credits that can be spent on NESBA track days or merchandise.

A NESBA membership has a ton of benefits including free crash and rain insurance and dealer and sponsorship discounts. NESBA memberships are good for one calendar year and can be renewed before expiring. People renewing their membership early will renew their membership from the date their current memberships are set to expire, not a year from when they renew so they won't lose any remaining months on their memberships.

In addition to rewarding members, these membership drives were designed as an incentive to have memberships begin over the winter months, so more members can receive new season information before the season begins.

The 2007 NESBA membership drive is as follows:

From January 1 through January 31, anyone who signs up for a NESBA membership online will receive a \$25 credit in his/her NESBA account.

NESBA is a non-profit, volunteer-run organization that sponsors track days and provides riding instruction at premier racetracks across the country, including Barber, Road America, Road Atlanta and VIR. For more information or see our complete event schedule, visit www.nesba.com or call 1-877-AT-NESBA.

*Credit will be applied within **48 hours** of membership purchase. Offer not valid on memberships purchased through any other discount program.*
